

Animesh Kumar

MERN STACK DEVELOPER

✉ animesh.kumar7717@gmail.com

☎ +91 7004650899

in [LinkedIn](#)

Experienced Full Stack Developer with 2 years and 8 months of MERN stack expertise, specializing in designing, implementing robust web applications. Skilled in server-side development using Node.js and Express, proficient in MongoDB database management. Excels in creating RESTful APIs, integrating front-end and back-end components, and optimizing code efficiency. Adept at collaborating with cross-functional teams, conducting testing and debugging, and maintaining technical documentation. Strong in Git version control with excellent problem-solving and communication skills

Experience

Successive Technologies

Aug 2021 - Sep 2023

- Development efforts for both Back-End (Node.js, TypeScript) and Front-End (React.js, JavaScript).
- Utilized third-party tools such as Swagger, Happy, Joi, Express, JWT, Axios, etc.
- Implemented Material UI for enhanced user interfaces.
- Built robust backends using Node.js and TypeScript, fetching and displaying user data in the UI.
- Continuously improved and peer-reviewed code to ensure quality.
- Developed RESTful APIs and successfully executed multiple proof-of-concepts (POCs).

BunnyFied Labs

Oct 2023 - present

- Integrated Back-End seamlessly with Keycloak for enhanced security.
- Developed efficient software applications, emphasizing clean code practices.
- Maintained and enhanced code bases through rigorous peer code reviews.
- Optimized applications for maximum speed and scalability.
- Designed and implemented RESTful APIs.
- Design and implement an ETL pipeline to seamlessly integrate third-party data into our database, ensuring data quality, consistency, and accessibility for downstream analysis and reporting.

Education

Sinhgad Institute Of Technology

Aug 2021

- Bachelor of Engineering, Computer Science
- GPA: 6.89

R.P.S College

April 2016

- HSC, (BSEB)
- Percentage: 69.4%

Skills

- Node JS
- React JS
- MongoDB
- Express
- Neo4j
- Feathers
- Microservices
- git, github and gitLab

Certification

- [MongoDB for JS Developer](#)
- [The MongoDB Aggregation Framework](#)
